An aerial photo to scale of the district was used by the Board to create a Site Plan. Six other renditions of a Site Master Plan were created at the April 12th, 2017 committee meeting. Kingscott engineers will blend these plans down to two renditions. They will be taken to the Site Master Plan Committee to narrow down to one rendition. This final rendition will come back to the Board for final approval. This Site Master Plan will help guide the Board in the upcoming years making decisions about the placement of future outdoor facilities. These may include athletic facilities, parking lots and walk ways.
